

Professional Summary

- Experienced **Full Stack Developer** with a track record of over **3 years** in web application development, specializing in **React and Node.js**.
- Proficient in the entire Software Development Life Cycle (SDLC), including requirement analysis, design, and end-to-end development, with a focus on modern web technologies.
- Strong expertise in React.js for building interactive and responsive user interfaces.
- Extensive experience in server-side development using Node.js and related frameworks such as Express.js.
- Skilled in utilizing state management libraries like Redux for efficient data handling in React applications.
- Proficient in RESTful API design and development, enabling seamless communication between front-end and back-end components.
- Excellent problem-solving skills and a passion for staying up to date with the latest trends in web development.

Professional Experience

Stratez Infotech Inc – Software Engineer

Sterling, VA | Jan 2022-Present

- Implemented event creation, editing, and management features, enabling users to organize the events seamlessly.
- Created a user registration module where users can register/manage their profiles within the Event Management System.
- Utilized React.js to build responsive and user-friendly interfaces, ensuring a smooth experience for event organizers and attendees.
- Used Node.js for server-side development, handling user authentication, event data management, and API integration.
- Implemented a secure and scalable data storage solution using PostgreSQL, ensuring efficient data management for users and events.

Environment: JavaScript, Nodejs, Reactjs, HTML, CSS, Postgres, VS Code, git.

Channelsoft Inc– Web Developer

India | Jan '21-Nov '21

- Employed performance optimization techniques in both front-end and back-end code, ensuring efficient data retrieval and rendering of inventory information for users.
- Ensured code reusability by creating modular and maintainable code components using React and Node.js, facilitating future development and enhancements.
- Implemented responsive design principles with HTML, CSS, and JavaScript, ensuring cross-device compatibility for field technicians and office staff.

Environment: Java (JSP, Servlets, Spring), JavaScript, SQL, HTML, XML, Oracle SQL developer, Eclipse, Tomcat, Oracle 11g.

Technical Projects

Weather App- <https://github.com/Naveenkommuri12/weather-app.git>

Nov 2022

- Developed a responsive web application that allows users to check current weather conditions for any city worldwide.
- Utilized HTML, CSS, and JavaScript to create the user interface and fetch weather data from the OpenWeatherMap API.
- Used JavaScript asynchronous programming(Async/Await) to ensure smooth user experience while fetching data.
- Optimized API calls to improve app performance and reduce latency.

Environment: JavaScript, script.js, OpenWeatherMap API, AJAX, JSON.

Employee Management System - <https://github.com/Naveenkommuri12/crud-app.git>

Jan 2023

- Developed a complete **Employee Management System** from scratch using modern web development technologies, including Bootstrap, React.js, Node.js, and MySQL.
- Implemented essential CRUD (Create, Read, Update, Delete) functionality in the Employee Management System, allowing users to seamlessly create, view, edit, and delete employee records.

Environment: Reactjs, mySQL, nodejs, javascript,bootstrap axios API, git.

Education

Wichita State University – Master's in Computer Sciences

Jan 2022-May 2023

Languages and Technologies

- Java;python; SQL; JavaScript; XML; Data Integration; HTML; CSS; GIT; Junit; Maven
- Eclipse; Node JS; Oracle SQL Developer; Toad; Spring; Linux; Selenium; Jenkins; Express JS; Asynchronous Programming
- MVC; AJAX; Agile Development; putty; Bootstrap; JSON; RESTFul services; Postgre SQL; Oracle 11g

Certifications

- IBM Big Data Engineer Explorer Certificate.
